

TWIST 350 - For gates up to 4m* (5 Wire)

★★★★★
PREMIUM QUALITY

MADE IN GERMANY

The Sommer range of Twist linear swing gate motors represent German engineering and manufacturing at its finest!

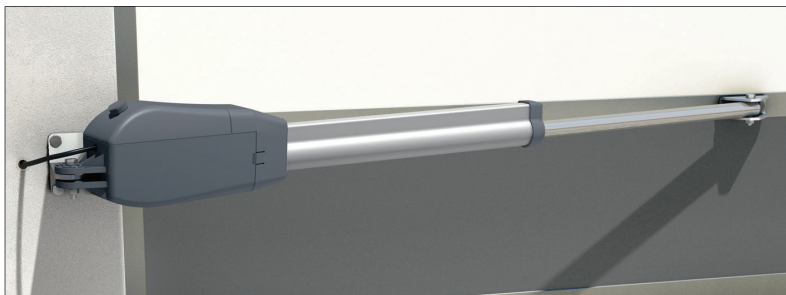

World renowned for their durability and strength, the Sommer Twist range are market leaders when it comes to their strength capabilities.

KEY FEATURES:

- No loss of power on ramp-up or down
- Easy to access/use manual release
- Easy to install, gate and post bracket can be screwed or welded as required
- Optional external transformer available for all models
- Simple to setup!
- Patented brake system, even with extreme forces applied such as wind load or vandalism attempts

IMPORTANT NOTES:

- No solar option available
- No backup battery solution available
- Not suitable for rising gates

OPTIONAL

Torminal programming device. Provides additional programming features

XL CONTROL BOX

XXL CONTROL BOX

MODEL	MOTOR VOLTAGE	MAXIMUM GATE WEIGHT (PER LEAF)	MAX. STROKE	MIN. SIDE ROOM	MAX. ANGLE	FORCE (NM)	DUTY CYCLE	SINGLE KIT PART NO.	DOUBLE KIT PART NO.
TWIST 350 (DTA Box)	24V	250Kg @ 4m • 600 @ 2m	450mm	120mm	120°	2,500	40%	1656-0073	1656-0074
TWIST 350 (DTA Sep. Trans)	24V	250Kg @ 4m • 600 @ 2m	450mm	120mm	120°	2,500	40%	1656-0060	1656-0061
TWIST 350 (XXL)	24V	250Kg @ 4m • 600 @ 2m	450mm	120mm	120°	2,500	40%	1656-0067	1656-0068
TWIST 350 (XXL-Sep. Trans)	24V	250Kg @ 4m • 600 @ 2m	450mm	120mm	120°	2,500	40%	1656-0069	1656-0070

OPTIONAL ACCESSORIES TO ENHANCE YOUR TWIST XL		50mm H	100mm H
Rear Mounting Brackets	Choose 50mm OR 100mm - Suits the Twist range - 200 350 XL	5825-0019	5825-0020
TorMinal Programming Device	For programming additional functions - Suits the Twist range - 200 350 XL		1018-0096

Indication of the max. gate width is for wind-permeable gates and for non-ascending (incline) gates!
The Twist 350 range is not suitable for solar applications. No battery backup solution is available for the Twist 350 range.
We always recommend a lock be fitted for gate leaves over 3m in length.
